

The Story

The King Chair, echoes all the elements of the Queen Chair, but delivers them in a larger package. The back is higher, the arms more elevated, but expect the same excellent level of comfort. Substantial wooden legs provide a well balanced visual impression.

Style Tip

Taking woven rattan chairs to a new level, the king chair boasts a majestic wingback form. The high back wraps round to cosset sitters while the arms are kept high and throne-like. In terms of comfort, we've made a feather-filled back pillow that complements the bouncier, firmer base. This is the ideal seat for whiling away the hours. Style tip: wingbacks always look at their best near a window so light can illuminate their dramatic design.

The Details

- Collection : Wickerworks
